## Greetings from our President

*Dear Fellow-members:*

Again I welcome this opportunity to send you greetings and best wishes, and a renewed call to service for our Society and all that it stands for.

There is so little I can say that has not been said many times before, and yet there are things that can not be reiterated too often. These are the fundamentals of patriotism, of religion, of all that makes up the spiritual values of life.

These are the things that we stand for. As Daughters of Founders and Patriots of America, we are heirs of a proud and mighty heritage. We have much to live up to; we have much to fight for; we have much to guard and perpetuate for coming generations. Our responsibility, both individually and as a Society, is a grave one. Our opportunities are many and are insistently calling us to service.

We are the heirs of those who loved liberty and justice more than life and treasure; who set religion above material advancement; who set patriotism above kingly favor and dared a king's wrath rather than yield one jot of their princely heritage of freedom.

What are we doing for God and country to-day to make ourselves worthy of such men and women?

Never in its history has our country needed more of the spirit of its Founders and Patriots than it needs to-day. We must keep that spirit alive in this and in coming generations.

Groups hostile to American institutions and ideals are planning their overthrow. Cynical and sneering things are being said of our glorious history and delightedly listened to by those who should hold it the dearest. Evil minds are attempting to belittle the heroic men and women of our past. Evil tongues are whispering to our youth, reviling patriotism, religion, virtue, the moral law, even God Himself. Rude hands are stretched out in a mad effort to haul down the flag, to demolish the Constitution of the United States, to wreck the social order under which we live and prosper, and to set up a new order on the ruins of all that the civilized world has held sacred for centuries.

The call to withstand these evil and destructive movements comes to us clear and insistent. It is a veritable call to the colors. Let it not find us among the slackers.

I would urge every Chapter to pay special heed to the young people in its State. In addition to whatever it may be doing to preserve the records of the past, I would urge it to take heed for the future of our country which lies in those young people's hands. "Inculcate patriotism in this and the rising generation," as our Society's constitution enjoins upon us to do. Teach the true meaning of patriotism—love of country—devotion to its ideals of liberty and self-government—service as a true and vigilant citizen in peace and war—the sacred duty of defense of country in time of need. A deadly form of internationalism is seeking to obliterate love of country through a false and distorted view of human brotherhood.

A 1029

Love of all other countries and contempt for one's own is its watchword. To teach love and good-will toward all is right, but not at the expense of one's own native land, for how can we love our neighbors *as* ourselves if we do not love and care for ourselves? He who neglects his own family is no true friend to others.

Let us guard our youth against this insidious poison that is seeking to turn them against their own country and is urging traitorous and cowardly pledges never to go to war, if need be, in its defense. Guard them against the advancing hosts of organized atheism. Guard them against falsified histories and biographies in the schools, and unsound theories of society, economics and philosophies of life as taught too often in the colleges.

This is a broad and varied field of activity for our Chapters to enter upon, each in its own way. The danger to our country from these forces of destruction is real and not a myth. The power of evil propaganda, even when exercised by a comparatively small though continually active group, is well-nigh limitless. I have much of this propaganda in my possession and know whereof I speak. Let us offset it by the constant teaching of constructive things, of respect for law, order and high character, of self-control instead of "self-expression," of pure, honest and virtuous lives instead of the so-called "new freedom," of reverence for the Constitution of our country and its principles of human liberty and justice; and above all let us teach a living faith in God such as guided our ancestors day by day in the founding and preserving of our country.

Thus doing, we shall keep the faith as true and loyal Daughters of the Founders and Patriots of America.

ELIZABETH C. BARNEY BUEL,
